Waiver – expedited action requested

# PETITION OF ETEX TELEPHONE COOPERATIVE FOR WAIVER OF DEADLINE IN 47 C.F.R. 54.301(b)

#### PETITION FOR WAIVER - EXPEDITED ACTION REQUESTED

Pursuant to Section 1.3 of the Commission's Rules<sup>1</sup>, ETEX Telephone Cooperative requests a waiver of the October 1, 2008 date established by Section 54.301(b) of the Rules for submission of projected Local Switching Support ("LSS") data for the 2009 calendar year. ETEX failed to provide its projected 2009 LSS data to the Universal Service Administrative Company ("USAC") by the due date. The data was provided to NECA in a timely basis, but was inadvertently excluded from the data provided to USAC by NECA. NECA provided the data to USAC on October 9, 2008. As described herein, a waiver of the filing deadline is respectively requested.

<sup>&</sup>lt;sup>1</sup> 47 C.F.R. §1.3

### I. Background

USAC requires that cost companies and average schedule companies submit projected information that allows USAC to calculate LSS amounts for inclusion in the Universal Service Program for the coming year. USAC requires incumbent local exchange carriers ("LECs") that have been designated an Eligible Telecommunications Carrier ("ETC") and serve 50,000 or fewer access lines within a study area to file LSS projections no later than October 1 of the year preceding the calendar year in which the LEC expects to receive LSS. ETEX is a rural incumbent local exchange carrier ("ILEC") and serves 13,660 access lines in its single Texas study area.

ETEX was designated as an ETC by the Texas Public Utility Commission in 1997. ETEX has been submitting LSS data and other federal High Cost Support forms and reports in a timely fashion, since these filing requirements were established during the implementation of the Telecommunications Act of 1996. ETEX has not previously missed a federal universal service filing deadline, or had a federal universal service filing returned as defective or incomplete. For the reasons described below, ETEX did not submit the 2009 LSS projection data to USAC in time to comply with the requirements of §54.301(b).

Although ETEX does not participate in NECA's Traffic Sensitive (TS) tariff, ETEX had provided NECA with the 2009 Local Switching Support projection data and necessary certification to file on its' behalf with USAC. NECA provided 2009 LSS projection data as a courtesy for a few non-TS pool members to USAC on October 1, 2008. On October 9, 2008, NECA found that the data and certification were inadvertently excluded from the information NECA had provided to USAC. NECA

immediately contacted USAC and provided the 2009 LSS data; however, USAC cannot process ETEX's 2009 projected LSS data submission unless and until the Commission grants ETEX a waiver of Section 54.301(b) filing data. As a result, ETEX will not receive LSS for 2009 until the Commission grants such waiver.

ETEX notes again that it has complied fully and in timely fashion with all federal universal service filing requirements and deadlines since the 1996 Act was implemented. ETEX takes the lapse in reporting seriously and ensure this will never happen again.

In addition, ETEX's spotless record of compliance with USAC reporting obligations should also factor into the FCC's assessment of this request. ETEX never missed a USAC deadline previously. The Commission found this to be a consideration in the granted waiver requests of Citizens Communications and Frontier Communications<sup>2</sup>. Like Frontier, ETEX's delay in filing was brief and the error was promptly cured and did not create a hardship for USAC or other fund recipients.

The grant of the waiver can easily be accommodated by USAC, without burden to any other carrier, within the existing universal service process. USAC uses the true-up process to correct projected data from ETC's to reflect carrier's actual LSS amounts at a later point in time. As such, ETEX's LSS disbursement, upon expedited action by the Commission, can be included and trued-up through the already established process.

## II. Adverse Impacts upon Universal Service Goals

The loss by ETEX of approximately \$239,000 in expected LSS for 2009 will be extremely onerous and disruptive, particularly because the company will have no

<sup>&</sup>lt;sup>2</sup> Citizens Communications and Frontier Communications Request for Review of a Decision of the Universal Service Administrator and Petition for Waiver of FCC Rule Section 54.802(a), Order Released October 27, 2005.

offsetting reductions in its 2009 local switching costs. The purpose of the LSS universal service program is to provide cost recovery to small LECs for the costs of their switching investment and expenses. As such, LSS has been a substantial portion of ETEX's recovery of its switching costs for many years. The continued availability of LSS ensures that companies are not required to recover these relatively higher costs through intrastate, basic rates.

#### III. Request for Expedited Action

Unless and until the Commission grants ETEX's waiver request, it will be forced to forego its 2009 LSS cost recovery revenues. This support is needed and used by ETEX to support its ongoing costs and capital improvements to upgrade its network and to provide advanced services. The required data has already been submitted to USAC, and it appears that USAC is fully capable of incorporating this data. ETEX requests expedited action by the Commission so that USAC can be properly notified as soon as practical so that future revenues will reflect accurate LSS cost recovery.

#### IV. Conclusion

ETEX regrets that their 2009 LSS projection data was filed after the due date and have taken steps to ensure that this will not happen again. For the reasons stated herein, ETEX submits that good cause has been shown for the grant of the requested waiver as set forth herein. Grant of the waiver will allow ETEX to receive LSS disbursements for the year 2009 consistent with the statutory goal of preserving and advancing universal service for the rural customers served by the company. The result will be consistent with

the public interest. Expedited action is requested to minimize the time that ETEX will be prevented from receiving LSS cost recovery support that it expected to receive. Without the LSS support, it will be the customers of ETEX that will be burdened with potential rates changes, curtailed upgrades or delays in the availability of advanced services. With the grant of the waiver, ETEX will merely receive the LSS that was intended under the universal service plan policies, and the grant of the waiver will not adversely affect any other carrier or customer.

Respectfully submitted,

ETEX Telephone Cooperative, Inc.
